PROFESSIONAL SUMMARY

Backend developer with professional experience since 2017, focused on PHP and Laravel. Experienced in building and maintaining web applications, mobile APIs, and administrative dashboards for education, healthcare, and e-commerce products. Hands-on experience with payment, Zoom, NELC, ERP, and CRM integrations, plus examination and reporting workflows.

TECHNICAL SKILLS

Backend: PHP, Laravel, Eloquent ORM, REST APIs, third-party integrations
Data & collaboration: MySQL, Git
Application technologies: Livewire, Inertia.js, WebSockets, Vue.js, jQuery
Integrations: Zoom, NELC, Moyasar, PayTabs, Tabby, Tamara, internal ERP and CRM systems

PROFESSIONAL EXPERIENCE

Backend Developer | NUMO

Jul 2023 - Present | Remote, Saudi Arabia

- Develop and maintain backend services, APIs, and administrative tooling for an educational platform serving approximately 32,000 students in Saudi Arabia.
- Delivered integrations with Zoom, Saudi Arabia's National eLearning Center (NELC), payment providers, and internal ERP and CRM systems.
- Built examination workflows, the main administration dashboard, and operational reporting tools for platform teams.
- Supported payment integrations for Moyasar, PayTabs, Tabby, and Tamara across the platform.
- Contributed backend development to a platform with SAR 45M+ in cumulative sales.

Backend Developer | Orca Vision Solutions

Jan 2021 - Apr 2023 | Mansoura, Egypt

- Developed backend solutions and administrative dashboards for mobile applications and client projects.
- Contributed backend development to the GNP healthcare project for a hospital in Saudi Arabia.
- Supported Mokfha, a project for a government cleaning company, through backend delivery and client-project work.

Backend Developer | DigmaWeb

Feb 2020 - Dec 2020 | Mansoura, Egypt

- Maintained and enhanced mobile-application dashboards, including performance-related improvements.
- Improved dashboard functionality for a healthcare application and supported payment-gateway integrations across existing projects.

PROFESSIONAL EXPERIENCE - CONTINUED

Laravel Developer | Spark Cloud

Nov 2018 - Jan 2020 | Mansoura, Egypt

- Developed websites, web applications, and administrative dashboards supporting mobile applications.
- Built web services and APIs for mobile-application functionality.
- Translated web requirements into implementation specifications and contributed from initial delivery through release.

PHP Developer | Experts

Jan 2017 - Oct 2018 | Mansoura, Egypt

- Built websites and administrative dashboards for client projects.
- Maintained existing applications, investigated performance issues, implemented functional improvements, and provided post-delivery support.
